AIMS AND SCOPE OF THE JOURNAL

Journal "Clinical Medicine of Kazakhstan" (ISSN 1812-2892) is a multi-field dedicated peer-reviewed medical journal. The main thematic scope – publication of materials on medical science and practice, education and healthcare organization. Joint Stock Company "National Scientific Medical Center" publishes the journal bimonthly in a year (in February, April, June, August, October, and December). All articles sent to editors undergo double-blind review. Manuscripts are judged by two experts exclusively on the basis of their contribution to initial data, ideas and their presentations. Editors accept articles for consideration and publication at no cost. Detailed information is available in the section Information for authors at the end of this material.

The Journal of "Clinical Medicine of Kazakhstan" to the full extent is wedded to initiative of open access and ready to provide free access to full texts of articles, as soon as they will be published and available in the Internet (www.clinmedkaz.org).

Journal was registered in the Ministry of Information of the RK on 05.04.2004 and currently included to the list of Publications, approved by the Committee for Control of Education and Science of the Ministry of Education and Science of the Republic of Kazakhstan for publication of the main outcomes of scientific activity.

The journal is indexed in such international scientific-information bases as Index Copernicus International, Google Scholar, CrossRef, DOAJ.

NATIONAL SCIENTIFIC MEDICAL CENTER JSC, ASTANA CITY, REPUBLIC OF KAZAKHSTAN

CLINICAL - DIAGNOSTIC LABORATORY

All the brilliant achievements of mankind in the field of physics, chemistry, molecular biology, are embodied in the technologies used for the laboratory diagnosis of diseases at the molecular and cellular levels. The quality and accuracy of the analysis are guaranteed by the modern equipment, quality control, usage of the reagents of well-known world manufacturers, qualified personnel. The laboratory performs a wide range of well-known researches and a number of complex and rare analyzes for scientific purposes. The immediate goal of NSRMC, JSC is an establishment of PCR laboratory for the study of human genetic defects and tissue typing for organ transplants.
